This policy is reviewed and updated annually to ensure that food and drink in the examination room at Saint Benedict CVA is managed in accordance with current requirements and regulations.

References in this policy to ICE refer to the JCQ publication **Instructions for conducting examinations**.

## **Purpose of the policy**

This policy confirms that Saint Benedict CVA reserves the right to exercise discretion whether to allow food and drink in the examination room, and confirms:

- the correct procedures are followed regarding food and drink in the examination room
- appropriate arrangements are in place for the management of food and drink in the examination room

## **1. Food and drink in the examination room**

- Food and drink is allowed in the examination room at the discretion of the head of centre (ICE 18.2)

To enable invigilators to check these items quickly and efficiently:

- food brought into the examination room by the candidate must be free of packaging and in a transparent container
- drink bottles must be transparent with all labels removed which would include transparent, reusable plastic bottles (ICE 18.2)

The following arrangements are applied at Saint Benedict CVA:

A bottle of plain water may be allowed in the examination room at the discretion of SLT/ the Exams Officer. However, this is on the condition that any water bottle brought into the examination room by the candidate is free from packaging and all labels are removed from drinks containers. The centre stipulates that the drink must be water only. Saint Benedict CVA will facilitate any medical needs for food/drink if requested in a letter from a GP/ hospital consultant.
